

## Physical Testing

# Hiding Power Charts

Our hiding power charts meet the requirements of most popular tests used to determine or compare hiding power and contrast ratios of pigmented coating materials such as paint, emulsions and inks. Our charts are UV cured and their lacquer is solvent resistant. They are suitable for use with most organic, water based or solvent borne coatings.

### Ordering Information

State chart reference number and quantity required (minimum quantity 100 unless otherwise stated). Individual designs or sizes can be printed to your specifications, minimum order quantity – 5000.
